Please discuss all potential
referrals with the Community
Diabetes Team. Any inappropriate
referrals will be returned. Only
refer to the Diabetes Centre for
the following specialist clinics:

- Pregnancy and pre-pregnancy
- Acute Type 1 Diabetes
- Structured Education for Type 1 Diabetes
- Patients suitable for and/or using continuous subcutaneous insulin infusion (CS11)
- Adolescent (non paediatric) diabetes
- Patients with diabetes and in CKD stage 3 or lower should be discussed with CDT consultant prior to referral to specialist clinic
- Patients on dialysis

Refer to Foot MDT all
patients with:

- Non-healing foot ulcer
- Acute hot swollen neuropathic foot
- Sudden change to foot shape.
